

BUILDING EXCELLENCE AWARDS

2017

MBA

NEW CONSTRUCTION BETWEEN \$10 AND \$25 MILLION

PROJECT: Residence Inn by Marriott

CONTRACTOR: Massaro Corporation

"There are few tougher locations in the Pittsburgh area to build than Oakland. Combine that with another project being built immediately adjacent to the site. To further complicate the issue, the size and shape of the property made it very difficult to meet all of Marriott's standards. Working closely with the hotel developer and architect, Massaro was able to work through the pre-construction phase to meet Marriott's standards and help the developer achieve a viable project, keep the project on budget, and then go on to build on a site that left no room for staging, access or lay-down. Through all phases, this project met the standards for a Building Excellence Award." – **Tom Kennedy, MBA Awards Judge**
